

CHILDREN'S DAY STOP VIOLENCE AGAINST CHILDREN!

BE A BUDDY, NOT A BULLY!

A SPECIAL CHILDREN'S DAY

by EARLY CHILDHOOD EDUCATION CLUB, SEGi COLLEGE KOTA DAMANSARA

The trainee teachers from Early Childhood Club, SEGi College Kota Damansara created an unforgettable day for the children in SJK (T) RRI Sungai Buloh on the 15th November 2017 in conjunction with the National Children's Day which falls on the 20th November every year.

Seeing the importance of becoming a child advocate, this group of trainee teachers were passionate to make a difference in the children's life in promoting the safe school, safe environment for all children to grow in Malaysia.

The theme for this year children's day: **STOP VIOLENCE AGAINST CHILDREN!** was set after seeing the rising number of abusive cases that was reported in Malaysia, it is indeed the responsibility of all adults to protect the children as they are fragile and vulnerable. It is important for the educators to become their voice and to stand up for their rights. **BE A BUDDY, NOT A BULLY!** teaches children to love one another, by not abusing others and to violate others' rights to be protected and to be loved.

Through the 27 games and activity booths and colouring competition organized by these trainee teachers, they hope to promote to the children the very essential tips in protecting themselves as well as to promote the importance of learning through play.

In addition to this, the trainee teachers from SEGi College Kota Damansara collected a total donation of **RM6,700.00** for this school, to benefit all the children who are pursuing their studies in SJK (T) RRI, Sungai Buloh. 100 sets of special gifts were prepared and given to the underprivileged children from this school, with the hope to ease the family's financial burden and to promote the importance of education to all children.

With the total number of 450 students from SJK (T) RRI Sungai Buloh and 130 trainee teachers from SEGi College Kota Damansara, the school which was located in the rubber estate research centre was filled with lots of smiles and laughter. The wonderful weather on that morning made everything become possible and smooth as planned. Thanks to all who have contributed and make this event a success.

A TIME TO EXPLORE AND DISCOVER

Children were fascinated exploring the beauty of science. Learning to play is the best strategy in teaching children.

A MOMENT OF HAPPINESS!

COLOURING COMPETITION

WINNERS

Kindergarten

Standard 1

Standard 2

Standard 3

Standard 4

Standard 5

Standard 6

DONATION

to the underprivileged children and to the school

PRESENTATION OF MOCK CHEQUE AND
SOUVENIR TO THE SCHOOL

GIVING IS NOT JUST ABOUT MAKING DONATION,
IT'S ABOUT MAKING A DIFFERENCE!

IT'S MORE BLESSED TO
GIVE THAN TO RECEIVE

GAMES AND ACTIVITIES

GAMES BOOTH

Through fun games, children are able to learn in a fun and relax manner, the trainee teachers believe that through this way, it is more effective in children's learning.

Sorting the pom pom balls according to colours using chopsticks? What a challenge!

This is testing my focus and balancing skills, I know I can do it!

Safety is our first priority on the road.

*I LEARN USING MY SENSES;
I USE MY EYES TO SEE,
I USE MY TONGUE TO TASTE,
I USE MY SKIN TO FEEL,
I USE MY EARS TO LISTEN,
I USE MY NOSE TO SMELL...*

ACTIVITIES

THROUGH HANDS ON ACTIVITIES, CHILDREN EXPLORE, CHILDREN INQUIRE, CHILDREN THINK, CHILDREN DISCOVER. CHILDREN EXPERIENCE. CHILDREN LEARN

RIGHT HAND TO RED 3, LEFT HAND TO BLUE 5, AND YOU HOLD FOR 10 SECONDS...

BLOW, AS HARD AS YOU COULD. COME, LET ME HELP YOU, HOO...

YES, YOU CAN MAKE IT THROUGH, FRIEND.

WE ARE HERE FOR YOU!

Oh, this reminded me of my childhood!
